

iKnow My Class Survey

Unlock the Potential of Formative Course Assessments

In an era that demands greater accountability from teachers and stresses the importance of students' engagement in their own learning, course assessments hold the potential to have a positive and lasting impact in our middle and high schools. To do so, course evaluations must be reenvisioned so they capture the real issues that impact student learning.

The goal of any educational system is for students to live up to their potential and move toward a hopeful future. To reach this goal, our teaching and learning environment must promote students' self-worth, ensure students are meaningfully engaged, and affirm that the information students are learning is both rigorous and relevant.

The *iKnow My Class* course assessment is designed to assess and address the conditions that inspire students to reach their fullest potential. It provides valuable information and formative assessment, which research acknowledges is essential for student growth and learning, to individual classroom teachers.

Class Survey

iKnow My Class is an online instrument that comes in two versions:

- A short version (20 questions)
- A long version (50 questions)
- The instruments take students 5 or 10 minutes to complete, respectively.
- Teachers will receive results in real time.

The short version is designed to give teachers a quick snapshot of student perceptions at any point in the course, while the long version is designed to give a more complete picture of students' experience of the course.

iKnow My Class allows for ongoing, formative assessment of student perceptions and engagement and allows teacher to make necessary mid-course adjustments. Teachers are encouraged to enhance the assessment by adding their own questions.

How to Get Started

Schools may register online:

Visit: www.iKnowMyClass.com
\$100 per school registration fee plus
\$1 per student (based on total
number of students in school)

- Each teacher subsequently registers individual classes/courses.
- Teachers may administer the assessment to students as many times during the school year as they would like.
- Teachers receive results in real time.

Quick Facts

- Easy to use online instrument for course assessment
- Serves as a formative assessment
- Two versions: 20 or 50 questions
- Only takes 5 or 10 minutes to complete
- For grades 6-12
- Results viewable in real time
- Results disaggregated by key demographics

Sample Questions

- I come to class ready and willing to learn.
- I see how this class relates to my other classes.
- This class challenges my thinking.
- The teacher knows my hopes and dreams.
- The teacher presents lessons in ways I understand.
- I am encouraged to use my imagination.

The *iKnow My Class* course assessment tool has been developed based on research and investigation into student engagement completed by Aspirations Unlimited, the Successful Practices Network, and the Student Engagement Trust of the United Kingdom.

All three organizations strongly believe students need to have a voice in their education if they are to reach their fullest potential.
